Programs conducted by the Institution for the promotion of gender equity during the year

Women are frequently marginalized and denied the same rights to health, education, decision-making, and economic independence as males in our society but our institution have zero tolerance policy. Violence against women and girls is avoided by gender equality. Our Institute aims to ensure fairness and justice in the treatment of individuals, regardless of their gender. Efforts towards gender equity address systemic discrimination, biases, and stereotypes, fostering a more inclusive and balanced society. Ongoing advocacy, education, and policy changes contribute to advancing gender equity. To promote gender equity in our institution, we are implementing policies that address disparities and create an inclusive environment which involves equal opportunities, Anti- Discrimination Policies, Representation, Training and awareness programs. There is an anti-ragging cell in the college which looks into any stray cases of any new comers being ragged by seniors and on the eve of anyone finding guilty of ragging, necessary punitive measures are initiated. The institution takes good care of the students and staff in every aspect and organized various programs like International Women's Day, Yoga sessions, awareness program on self-defense, Awareness program on most prevalent cancers in women, Awareness program on Gynecological disorders, Guest lectures on various topics, Gender Equity, Games, etc. in order to build a healthy environment.

The Institution addresses the grievances of women by forming appropriate committees with equal representation of women faculty in decision making processes. It has also provided equal opportunity to women staff and students. Every year Women's Day is celebrated by the Institution grandiosely to encourage the spirit and well-being of women. The women empowerment cell organized an art competition for students on theme "Her Story, Her Art Celebrating Women's Creativity in the class room on 06-07-2018. The main motto for organizing this competition is to create awareness among the students and staff about the need for uplifting girls personally, intellectually, socially and professionally. Competitions of such kind bring awareness among the students and staff about gender-based violence, domestic violence and steps to mitigate them. Further through such platforms, women would also learn about the social protection rights and economic packages available to them. Competitions are learning areas to empower women to realize their potential and compete for equal opportunities in building a successful home and career. The student's participation in the competition enabled them to showcase their talent. The evaluators Y.Vishnu Vandana coordinator of women empowerment cell and M. Madhavi kumari faculty of AIPS were delighted and amazed by the young talents they witnessed. The program witnessed the participation of both female and male students, who eventually grasped the significance of women empowerment. This competition played a crucial role in promoting women empowerment and nurturing their inherent abilities. It demonstrated that this platform is highly effective in showcasing their talent, inner voice, thoughts, and ideas on women empowerment. Many boys and girls took part in the competition to bring about a change in their attitude towards women and the society. The best arts have been selected and have been awarded with certificates. The event witnessed a massive success with 80 students stepping up to write inspiring messages.

Women empowerment cell of AIPS, organized an awareness program on self-defense on 15-08-2018 from 10:00 AM to 12:00 PM in college ground. The session was exclusively designed for female participants, and it was led by Bangaru Paradesi black belt 4 dan Sr.Instructor as the resource person. He initiated the session with a concise introduction, highlighting the critical importance of self-defense for girls. Addressing the girls directly, he underscored three key areas of focus. Firstly, self-defense, which not only contributes to physical and emotional fitness but also equips individuals with the ability to protect themselves, thereby boosting self-esteem and confidence. During the session, he imparted valuable techniques to the students, empowering them with the knowledge and skills necessary to safeguard themselves in times of need. In conclusion of the event, self-defense is a vital skill that provides numerous benefits. It enhanced physical health, mental resilience, and confidence, and empowers individuals to protect themselves and others. However instructor said, it is crucial to remember the legal and ethical boundaries of self-defense, and to use these skills responsibly. In a world of unpredictability, the ability to defend oneself is not just an advantage, it is a necessity which is quite helpful for the girl students. Self-defense is a countermeasure that involves defending the health and well-being of oneself from harm, and training techniques instills self confidence amongst girls and helps to promote girls education particularly their transition to secondary and higher secondary level and to reduce the dropout rate in schools. The event received appreciation from both the management and the students' parents, recognizing the value of such training. A total of 75 students actively participated in this event.

Resource Person	:	Smt. P Kalavathi (Constable)

Women empowerment cell of AIPS, has conducted an Awareness Program on Women Safety on the theme "**Promotion program on Women's Safety**" on 21-09-2018 Therefore, the primary goal of the event was to raise social awareness about prevalent crimes such as rape, sexual assaults, molestation, eve-teasing, acid attacks, kidnapping, and murder. Women's safety is a big concern that must be addressed in a country like ours, statement given by the speaker. P. Kalavathi said that the day women in India will feel safe to do the most basic things like going to nearby shops without the fear of anything is when we will truly succeed as a country. The moment every citizen understands what consent is and starts respecting the women around them is when we can truly accomplish the dream that our predecessors dreamt of. But right now, we still have a long way to go as a nation. Every girl student should practice awareness, use your sixth sense, take self-defense training, escape is always your best option, create boundaries. Additionally, the event aimed to educate and sensitize students, making them more vigilant and informed, with a focus on collective efforts to combat these issues. 100 students attended the program.

Theme	:	“Awareness Program on Most Prevalent Cancers in Women”
Date	:	25-10-2018
Timing	:	10:00AM to 12:00PM

Guest	:	Dr. Sri Teja MBBS (MD)
List of participants	:	110 students

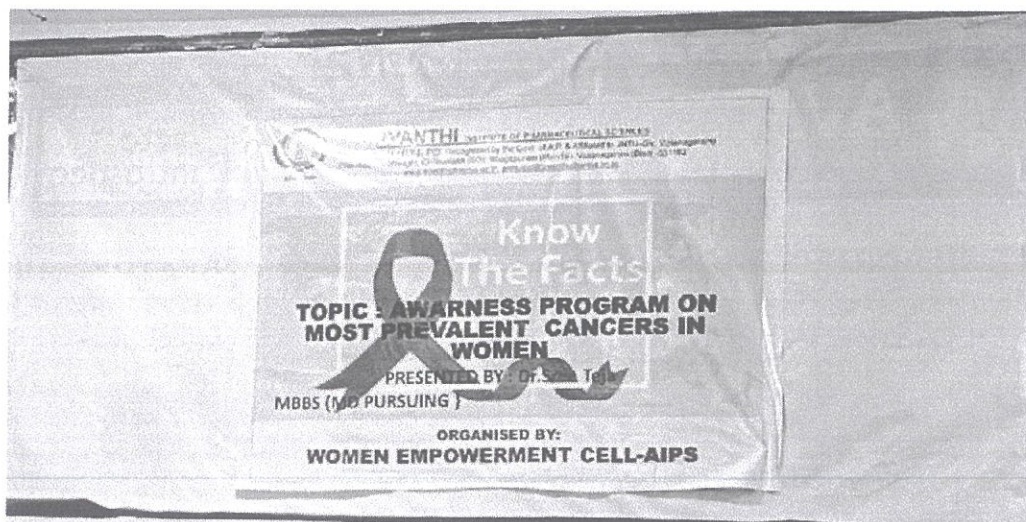

Women empowerment cell of AIPS, has conducted an awareness program on cancers on the theme “**AWARENESS PROGRAM ON MOST PREVALENT CANCERS IN WOMEN**” on 25-10-18 from 10:00AM to 12:00PM in the college seminar hall. Dr. Sri Teja MBBS was the resource person. The speaker discussed the various types of cancer that commonly affect women and debunked any misconceptions surrounding the topic. She specifically highlighted the top 5 cancers that impact women, which include lung, breast, cervical, oral, and colon cancer. Additionally, she provided a comprehensive guide on how to conduct a self-breast examination. The speaker addressed several common myths about cancer and presented factual information to dispel any misunderstandings. The event itself holds great importance as cancer is one of the most prevalent and potentially life-threatening diseases that women face worldwide. Cancer can be caused owing to exposure to pollution, radiation, harmful substances, poor lifestyle choices, etc. Cancer is best treated when detected early. The significance of early detection through breast cancer screening cannot be emphasized enough. Regular screening plays a vital role in saving lives and empowers individuals to take charge of their own health. Cancer is, undoubtedly, one of the most life-shattering diseases. Together, let us make an effort to take on this disease with more care and hope. It is crucial to remember that early detection saves lives. In conclusion, the speaker emphasized that cancer is a disease that challenges conventional norms. The program was attended by 110 women students and faculty members.

Date	:	08-12-2018
Timing	:	10:00AM to 12:00PM

Women empowerment increasing number of young girls in the society are suffering from PCOS. This made the Women Empowerment Cell thought of conducting an awareness program on PCOS issues, its reasons, precautions to be taken and solutions, for the knowledge of the girl students and women faculty. The resource person Dr. Deepthi MBBS having a great experience in dealing with all gynecological issues explained about polycystic ovarian syndrome that it is only a syndrome but not a disease, which is a lifelong condition that continues far beyond childbearing years and can be simply controlled by a proper diet & lifestyle because the reason for this syndrome is mainly due to unhealthy diet and lack of physical exercise. She said irregular/ delayed periods, excess facial hair can be considered as symptoms. Dr. Deepthi threw light on the solution for this problem - eating a balanced, low carbohydrate high protein diet to lose weight & increasing physical activity helps a lot to come out of this issue, she has practically shown some yoga postures which are helpful to reduce the impact of the issue. She explained about the signs and symptoms, core point of the event is to let know the students about the prevention, health modifications, life style modification. Before the program ended, some of the women faculty & girl students asked some questions which were answered very patiently by Dr. Deepthi. 120 members have been participated in the awareness program.

Women empowerment cell of AIPS has organized an awareness program to bring the awareness among the students about gender equality. The event organized in college seminar hall from 10:00AM to 12:00PM on 07-02-19 by M.Divya M.Pharm. The program was addressed that awareness raising is a process which helps to facilitate the exchange of ideas, improve mutual understanding, and develop competencies and skills necessary for societal change. It involves both genders sharing responsibilities and participating equally in all areas of life, including home, community, and society. Gender equality considers the different needs and interests of men and women and aims to break down stereotypes and prejudices about gender roles and she continued saying gender equality can only be achieved when both male and female individuals are treated similarly. But discrimination is a social menace that creates division. We stop being together and stand together to tackle our problems. This social stigma has been creeping into the underbelly of all of society for many centuries. This has also been witnessed in gender-based cases. Gender inequality is the thing of the past as both men and women are creating history in all segments together and Once all these menaces will be eradicated, every family will understand the value of a woman and our country will achieve gender equality in a real sense. She explained that the Women are creating examples everywhere and we all should highlight them to change the scenario and give them equal rights. With so much potential, it is only a matter of time when women will overtake men and have all their abilities on display for the world to see! The program was continued with student discussion panel and covered all the aspects of the program regarding, what measures can be taken to ensure everyone has equal opportunities, we need to consider privilege, bias and other parameters that can limit how people access opportunities. 100 students were attended.
