Activity	:	Women Empowerment Cell program (gender sensitization and gender equality)
Event	:	Awareness Program on Self Defense
Theme	:	“Shield and Strike -Your Self-Defense Awareness Program”
Date	:	19-08-2019
Timings	:	10:00AM to 12:00PM
Venue	:	Seminar Hall, Avanathi Institute of Pharmaceutical Sciences
List of Participants	:	90 students
Guest	:	P. Narasimha Rao 7 <sup>th</sup> Dan black belt, Chief Instructor, PNR Martial Arts Association

The Women Empowerment Cell at Avanathi Institute of Pharmaceutical Sciences organized a comprehensive awareness program focused on enhancing the self-defense skills of female students on August 19<sup>th</sup>, 2019. This exclusive session was thoughtfully designed to empower girls with essential tools for personal safety. The resource person for the event, P.Narasimha Rao, commenced the session with a succinct introduction underscoring the critical importance of self-defense for girls. In her address to the participants, she highlighted three key areas essential for personal empowerment: physical and emotional fitness, the ability to defend oneself, and the consequent boost to self-esteem and confidence. Self-defense education promotes the idea that everyone, regardless of gender, has the right and ability to protect themselves. It contributes to a more equal and inclusive society. The resource person adeptly imparted practical techniques to the students, equipping them with valuable skills to protect themselves when needed. The event garnered appreciation from both the management and parents of the students, recognizing the significance of fostering a sense of empowerment and safety among the female student community. A notable 80 students actively participated in the event, reflecting a keen interest and commitment to learning and implementing these crucial self-defense techniques. The Women Empowerment Cell's initiative not only contributed to enhancing the physical well-being of the participants but also underscored the institution's dedication to fostering a secure and empowering environment for all.

Women Empowerment Cell at Avanathi Institute of Pharmaceutical Sciences took a proactive step in promoting awareness and understanding of gender equality by organizing a comprehensive awareness program. This enlightening event unfolded in the college seminar hall, spanning from 10:00 AM to 12:00 PM on September 27, 2019. The program commenced with a thoughtful address, underscoring that awareness-raising is a transformative process crucial for facilitating the exchange of ideas, fostering mutual understanding, and cultivating competencies and skills essential for societal change. The Women Empowerment Cell at Avanathi Institute of Pharmaceutical Sciences conducted a webinar on, Webinar on, "Gender Sensitization in Current Society" on **11-02-2020** through google meet. Around 70 students actively participated in the webinar. Guest speaker V.Swarnalatha discussed about the awareness, promote open dialogue, and foster a more inclusive and gender-sensitive society. The key topics covered included an introduction to gender sensitization, discussion on prevalent gender stereotypes and biases, understanding and addressing sexual harassment and discrimination, promoting inclusivity in the workplace, and empowering marginalized genders. The program format included opening remarks, expert presentations and an interactive Q&A session. The expert speakers provided valuable insights into the importance of gender sensitization, offering practical strategies to promote inclusivity and equality in various aspects of society. The impact of the webinar was notable, as participants gained a deeper understanding of gender-related issues and practical approaches to foster a more equitable society. The event encouraged open dialogue, breaking down barriers and creating a supportive community where participants could share their perspectives and experiences. However, there were challenges noted, including time constraints affecting the depth of discussions and technical difficulties faced by some participants. To address these challenges, recommendations were made to organize follow-up sessions to explore specific topics in more detail and provide detailed technical guidance for future webinars. The overall conclusion emphasizes the meaningful and informative nature of the webinar, contributing to the ongoing dialogue on gender equality and setting the stage for continued efforts to create a more inclusive and gender-sensitive society.

### A REPORT ON A WEBINAR ON PCOS: A JOURNEY TO HEALTH

Activity	:	Women Empowerment Cell program (gender sensitization and gender equality)
Event	:	A webinar on PCOS: A Journey to Health
Theme	:	A Journey to Health
Date	:	03-03-2020
Timing	:	10:00AM to 12:00PM
Venue	:	Seminar Hall, Avanathi Institute of Pharmaceutical Sciences.
List of Participants	:	70 students
Guest	:	Dr.G.Roopaa kala

An increasing number of young girls in the society are suffering from PCOS. This made the Women Empowerment Cell think of conducting a webinar on awareness program on PCOS issues, its reasons, precautions to be taken and solutions, for the knowledge of the girl students and women faculty. The resource person Dr.G.Roopaa kala having a great experience in dealing with all gynae issues explained about polycystic ovarian syndrome that it is only a syndrome but not a disease, which is a lifelong condition that continues far beyond childbearing years and can be simply controlled by a proper diet & lifestyle because the reason for this syndrome is mainly due to unhealthy diet and lack of physical exercise. Creating awareness about the symptoms and risk factors of PCOS can lead to earlier detection and diagnosis. Timely identification of PCOS is crucial for managing the condition effectively and preventing potential complications. She said irregular/ delayed periods, excess facial hair can be considered as symptoms. Dr.G.Roopaa kala

threw light on the solution for this problem - eating a balanced, low carbohydrate high protein diet to lose weight & increasing physical activity helps a lot to come out of this issue, she said. Before the program ended, some of the women faculty & girl students asked some questions which were answered very patiently by Dr.G.Roopaa kala. 70 members have been attended the webinar. Events focused on PCOS often bring together healthcare professionals and specialists. Attendees can access valuable resources, receive expert advice, and learn about the latest developments in PCOS research and treatment.
