A REPORT ON BREAST SCREENING SESSION

Activity	:	Women Empowerment Cell program (Gender Sensitization and Gender Equity)
Event	:	Breast Screening Session
Theme	:	“A Workshop on Screening of Breast Cancer (Self Examination)”
Date	:	11-10-2022
Timing	:	10:00AM to 12:00PM
Venue	:	Seminar Hall, Avanathi Institute of Pharmaceutical Sciences.
List of participants	:	130 students
Guest	:	Dr.Jawid Vaishnavi, MBBS MD

On the eve of breast cancer awareness month (October) Women empowerment cell of AIPS, has conducted a breast screening session on the theme “A Workshop on Screening of Breast Cancer (Self Examination)” on 11-10-2022 from 10:00AM to 12:00 PM. Dr Jawid Vaishnavi, MBBS MD was the speaker. The workshop on the screening of breast cancer, with a focus on self-examination, was organized to educate and empower girl students with essential knowledge about breast health. The primary objective was to raise awareness about breast cancer, emphasize the importance of early detection through self-examination, and provide practical skills for conducting self-breast examinations. The workshop began with an introduction to breast cancer, including its prevalence, risk factors, and the significance of early detection. Information on common risk factors for breast cancer was presented, along with preventive measures. Lifestyle choices and factors contributing to breast health were discussed to encourage students to adopt a proactive approach. A comprehensive overview of the signs and symptoms of breast cancer was provided. Emphasis was placed on recognizing changes in the breast, such as lumps, changes in skin texture, and nipple discharge, which warrant attention and medical evaluation. A practical session guided students through the steps of self-breast examination. Participants were provided with illustrated materials and encouraged to ask questions for clarification. The importance of regular self-examinations as part of routine health practices was underscored. 130 girl students attend the program. Early detection of breast cancer significantly improves the chances of successful treatment and survival. Regular breast examinations, including self-exams, clinical breast exams by healthcare professionals, and mammograms, can identify abnormalities in the breast tissue at an early, more treatable stage.

Activity	:	Women Empowerment Cell program (gender sensitization and gender equality)
Event	:	Awareness Program on Self Defense
Theme	:	“Warrior within Unleashing Your Self-Defense Potential Program”
Date	:	03-01-2023
Timing	:	02:00 PM to 04:00 PM
Venue	:	College ground, Avanthi Institute of Pharmaceutical Sciences.
List of Participants	:	102 students

Women Empowerment cell of AIPS has organized an self-defense program to enhance the Self-protection skills of the girl Students on 03-01-2023. The session has been conducted exclusively for girls. The resource person, Bangaru Paradesi Black belt -4th Dan senior instructor, started the session with a brief introduction on the importance of self-defense for the girls. Addressing the girls, he emphasized on three areas, one is self- defense which gives physical and emotional fitness, ability to defend oneself, which increases one’s self-esteem and confidence. Instructor has demonstrated some techniques to the students to save themselves in need. The event was appreciated by the management and parents of the students too. 102 Pharm D students were participated in the event. Self-defense training incorporates physical fitness elements, promoting overall health and well-being. Engaging in regular physical activity is essential for maintaining good health, and self-defense programs provide a practical and engaging way to achieve this.

Learning self-defense techniques builds confidence and resilience in girl students. The ability to overcome physical challenges and navigate potentially threatening situations instills a belief in their own capabilities, contributing to personal growth and mental toughness. Participating in self-defense programs often creates a sense of community and camaraderie among participants. Girls can support and encourage each other, creating a positive and inclusive environment that extends beyond the training sessions. Self-defense program, include education on legal rights and responsibilities. Girls learn about their rights in different situations and gain knowledge about appropriate responses to ensure their safety within the bounds of the law.

AIPS Women Empowerment Cell organized an art and essay competition for girl students on the eve of women's day on theme "Ideas Unleashed - Art & Essay competition on gender sensitization" in the seminar hall at 10:00 am on 07-03-2023. The competition was a creative and thought-provoking event that aimed to engage students in meaningful discussions about gender equality and empower them to express their thoughts and ideas through art and writing. The competition sought to encourage students to explore and contribute to the ongoing conversation about gender sensitization. The "Ideas Unleashed" Art & Essay Competition on Gender Sensitization for girl students was a resounding success in its endeavour to promote gender equality and sensitize students to the importance of this vital issue. It encouraged creativity, self-expression, and meaningful dialogue while empowering youth to become advocates for change. 65 students participated in the competition. Women's artistry empowers them to assert their identities, challenge stereotypes, and advocate for gender equality. Art becomes a platform for self-expression, promoting women's rights, and addressing issues related to gender discrimination and social justice. Women's voices add richness and depth to cultural heritage. Through literature, visual arts, music, and other forms of expression, women contribute to the creation of a vibrant and diverse cultural tapestry that reflects the complexity of human experiences. Women's contributions to the arts have significant economic implications. In conclusion, the importance of women's voices and artistry lies in their ability to shape culture, challenge norms, and contribute to a more inclusive and equitable world. Supporting and amplifying women's voices in the arts are essential for fostering creativity, encouraging dialogue, and promoting a society that values and celebrates the diverse perspectives of all its members.

Kalavathi and M. Lakshmi Devi in their talk addressing the girls emphasized on the strong need of every girl to have a clear idea about her rights and responsibilities. She suggested that the girls must create their goals from the college level itself, she added that the goal they created will help not to deviate them from any distractions. Before starting her talk she enquired whether the girls downloaded Disha App or not. She explained to all the girls clearly how they can utilize the app in dire consequences. Promote awareness about personal safety, self-defense, and recognizing potentially dangerous situations She urged the girls on the need to come forward and lodge a complaint without any fears and inhibitions. She shared her experience of how every day they encounter dowry cases, she said that dowry cases are reported at least four to five daily. She stated that every girl must keep in mind about their parents and make it a point that they will never let them down and their actions should never give any pain to them. It's important to address girls' security comprehensively, involving a combination of education, awareness, community engagement, and policy advocacy to create a safer environment for everyone. Collaboration between individuals, communities, and authorities is the key to implementing effective strategies. Event	:	World ovarian cancer day (Student forum discussion)
Theme	:	“No Women Left Behind: World Ovarian Cancer Day”
Date	:	09-05-2023
Time	:	10:00 AM to 12:00 PM
Venue	:	Seminar Hall, Avanthi Institute of Pharmaceutical Sciences.
List of Participants	:	130 students
Guest	:	Dr. B Teja Sri, Assistant professor, B. Aruna & K. Rohini

AIPS Women empowerment cell, organized an awareness program on ovarian cancer on 09-05-2023 from 10:00 AM to 12:00 PM in college seminar hall Dr. B Teja Sri, Assistant professor was the speaker of this event. She had coordinated 3rd pharm-D students for student forum discussion on ovarian cancer.

They aimed to raise awareness, promote education, and facilitate open dialogue regarding this significant women’s health issue. The event brought faculty and students to share insights on various aspects of ovarian cancer. Raising awareness about the risk factors associated with ovarian cancer, such as age, family history, and genetic mutations, can help individuals understand their own risk and take preventive measures. Students explained about risk factors contributing to ovarian cancer, including genetic predisposition, age, reproductive history, and environmental factors. A comprehensive discussion on ovarian cancer symptoms highlighted the importance of recognizing early warning signs. Students actively shared information on common indicators such as persistent bloating, abdominal pain, changes in bowel habits, and the significance of prompt medical attention. Students explored the intricate details of ovarian cancer pathophysiology, delving into the cellular changes that lead to tumor formation. Finally, students conducted a feedback survey to gauge participants' thoughts on the ovarian cancer. The student-led ovarian cancer forum successfully facilitated in-depth discussions on pathophysiology symptoms, causes, and treatment. Positive feedback indicates that participants found the forum informative and engaging. Incorporating suggestions for improvement in future discussions will ensure continuous enhancement of knowledge-sharing platforms on ovarian cancer within the student community. Total 130 pharm.D and 3rd year students attend the event.

AIPS Women Empowerment Cell has conducted an initiative program on girl child education on the theme “A Village Initiative: On Girl Child Education and Empowerment of Rural Women” on 24-05-2023 Majjivalasa village. The program aimed at promoting girl child education and empowering rural women in our community. Education helps reduce the prevalence of gender-based violence by promoting awareness, empowerment, and a culture of respect. Educated girls are more likely to recognize and challenge abusive behaviors. The students promoted the importance of girl child education to the rural women and explained about the significance of educating their own children. Educating the girl child is a transformative force that positively influences individuals, families, communities, and societies at large. It is a fundamental right and a key driver for achieving sustainable development and creating a more just and equitable world. Women empowerment coordinator, Y. Vishnu Vandana also gave a speech regarding this matter. The objective of this awareness program is to promote girl child education by increasing enrolment and retention rates, empower rural women by providing them with skills and resources to become self-reliant and to improve the overall socio-economic conditions of the village. However, students can learn valuable lessons from this initiative about breaking the cycle of poverty, achieving social change and the importance of education and empowerment in rural communities. 85 students attended the event.
