Report: Beach cleaning program (Beat plastic pollution) by Avanathi Institute of Pharmaceutical Sciences Pharmacy students.

Date: 06.06.2022

Time: 10:00 AM

Location: Bheemili beach, Visakhapatnam.

Introduction: On, 06-06-2022 a Beach cleaning program with the theme "BEAT PLASTIC POLLUTION" was organized by the 2nd Pharmacy students of Avanathi Institute of Pharmaceutical Sciences at Bheemili. The program aimed to contribute to the local community's well-being and promote environmental awareness among the students. Beat plastic pollution is a global theme and campaign that focuses on raising awareness about the environmental impact of plastic pollution and encouraging individuals, communities and governments to take action to reduce plastic usage.

Objectives:

1. Raise awareness about the harmful effects of plastic pollution on marine ecosystems and human health
2. Awareness on reduce plastic use and make the beach a plastic free zone by reducing single use plastics.
3. Educating the community to promote recycling
4. Foster a sense of responsibility towards marine creatures sustainability
5. Encouraging businesses and vendors along the beach to adopt sustainable packaging solutions, reducing the use of plastic containers and straws
6. Emphasize the connection between plastic pollution on beaches and its impact on marine life and ecosystems

Program Highlights:

- The program has created awareness about environmental protection among the local people.
- To explain how people's action would affect the environment and consequently the future generations.
- To explain the necessity of regular cleaning of trash on the coast as well as the marine

litter for the survival of marine ecosystems.

- To avoid the use of plastic in any form in order to protect the marine creatures as well as human beings.
- 30 students along with 4 faculty members (Dr.B.Manoj Kumar, Dr. T.Rushi, Dr. N.Hema Madhuri, Dr.M.Abhishek) participated in cleaning 4.5 kms of bheemili coastline and collected 5 bins of plastic waste.

Community involvement:

The awareness programme was conducted to make people aware about the harm caused by use of plastic and its effect on the marine ecosystem.

Event conclusion:

250 students were attended. It is an awareness program conducted by the institution to bring the awareness among the general public about harm caused by using plastic in marine creatures and human beings and how the future generations would be affected by the people's action.

Finally the program ended with the slogans on beach cleaning as

"Take a stand; lend a hand-keep our beaches clean and grand"

**"ఒక స్టాండ్ తీసుకోండి, మా బీచ్లను శుభ్రంగా మరియు గొప్పగా
ఉంచుకోండి"**

Avanthi pupils clear trash at Bheemli beach

EXPRESS NEWS SERVICE
@ Visakhapatnam

A group of Pharm D students belonging to Avanthi Institute of Pharmaceutical Sciences cleared the trash on Bheemili beach on Tuesday. They created awareness about environmental protection among the local fishermen.

They also explained how everybody's actions would affect the environment and consequently the future generations.

The students said that regular cleaning of trash on the coast as well as marine litter is crucial for the survival of the marine ecosystem and for clean beaches.

Report: Tree Plantation Program by Pharmacy students of Avanathi Institute of Pharmaceutical sciences

Date: 23-08-2022

Time: 11:00 AM

Location: Cherukupally

Introduction: On, 23-08-2022 a commendable initiative was initiated by the B Pharmacy students of Avanathi Institute of Pharmaceutical sciences, aimed in promoting tree planting program in Cherukupally. Tree plantation programs play a crucial role in environmental protection, biodiversity enhancement and combating climate change. Trees absorb carbon dioxide and release oxygen in maintaining homeostasis in human beings and environment. Trees provide habitats for a variety of species, promoting biodiversity. Trees help in maintaining a balanced water table and preventing soil salinity. Tree plantation programs can serve as educational tools, raising awareness about the importance of trees and the environment. 70 students, accompanied by 2 faculty members (Dr. T.Rushi, Dr.B.Manoj Kumar), enthusiastically planted a variety of 50 indigenous trees in main locations across Cherukupally.

Activities: The tree planting program commenced with a brief introduction by the students to the local community. Students interacted with the people and explained about the tree plantation and their importance at village level and students also influenced community to plant the trees at their respective places and also educated the local community about the pivotal role trees play in maintaining ecological balance. Students have planted a total of 70 trees in various places in the village.

Community Involvement: Local residents actively participated in the event, reinforcing the sense of unity and shared responsibility. Through interactive sessions and discussions, the students conveyed the importance of emphasizing how trees contribute to reducing carbon footprint and conserving natural resources.

Report: Awareness program on dengue and unhygienic environmental conditions by Avanathi Institute of Pharmaceutical Sciences at Chittivalasa

Date: 12-09-2022

Time: 10:00 AM

Location: Chittivalasa

Introduction:

On, 12-09-2022 an Awareness program on dengue and unhygienic environmental conditions was organized by 3rd Pharm.D students of Avanathi Institute of Pharmaceutical Sciences at Chittivalasa. The program was aimed to create awareness about dengue symptoms (fever, chills, fatigue, joint pains) and determinants. Dengue is the most prevalent and severe vector borne disease affecting most of the local community level due to less education on vector control measures and their prevention on improper maintenance of surroundings and proper drainage and disposals to prevent the vector. In this connection 30 students along with 3 faculty members (Dr. T.Rushi, Dr. B.Manoj Kumar, Dr. N.Hema Madhuri) nearly visited 40 houses and 75 primary school students and educated them with placards, pamphlets and banners regarding dengue preventive measures in the morning session of the event.

Objectives:

- Increase awareness about dengue among the community and primary school students
- Decrease environmental causing factors for dengue
- To educate local community and primary school students about the preventive measures
- Educated local community and primary school students on signs and symptoms of dengue

Activities:

The activity started with a brief session about the dengue, its symptoms and transmission of disease. The students also educated the local community people and primary school students at Chittivalasa village about the preventive measures and environmental factors that cause

spread of dengue and students interacted with the community door to door by distributing the pamphlets and educated them regarding the disease causing factors.

Impact:

The enthusiastic participation of the students led to creating awareness about the dengue among the local people. It also enhanced people in educating and in recognising their symptoms and what care should be taken in such conditions and how to prevent the vectors.

Conclusion:

The awareness program organized by 3rd Pharm.D students of Avanathi Institute of Pharmaceutical Sciences was a successful endeavour in promoting awareness in community management. Such awareness programs play a pivotal role in nurturing and being socially responsible citizens.

The awareness program was concluded with the slogans

“Stagnant water’s enemy, Dengue’s strategy”

“నిలిచిపోయిన నీటికి శత్రువు, డెంగ్యూ వ్యాహం”

Report: Swachh Bharat Program by Avanthi Institute of Pharmaceutical Sciences Pharmacy Students at Cherukupally on 27-10-2022

Date: 27-10-2022

Time: 10:00 AM

Location: Cherukupally

Introduction:

On, 27-10-2022 Swachh Bharat program was organized by 3rd B.Pharmacy students of Avanthi Institute of Pharmaceutical Sciences at Cherukupally. The Swachh Bharat Program was launched on October 2, 2014, on the occasion of Mahatma Gandhi's birth anniversary. The program was initiated by the government of India to promote cleanliness in rural and urban areas as a part of extension of this program our institute carried out this event in Cherukupally village. Our educational institutions played a pivotal role in educating the local people regarding the cleanliness on behalf of the government.

Objectives:

- To promote cleanliness and hygienic practices in rural and urban areas
- To ensure proper management of solid and liquid waste.
- Educating the locals about proper waste disposals.

Activities:

The event began with a brief orientation session, highlighting the importance of maintaining cleanliness and hygiene for a healthier environment. The students, divided into groups, actively participated in various cleaning activities, including picking up litter, cleaning public spaces, and raising awareness about waste segregation. 50 students and 4 faculty members (Dr. T.Rushi, Dr. B.Manoj Kumar, Dr. N.Hema Madhuri, K.Rohini) cleaned 4 kms and collected 10 kgs of garbage (Food scraps, yard waste, paper, wood, plastics, metals, glass, batteries, pesticides, bricks, bottles, bags etc) and handed over to municipality.

PRINCIPAL

Impact:

The enthusiastic participation of the students led to a significant improvement in the cleanliness of Cherukupally. The program not only enhanced the physical appearance of the village but also fostered a sense of responsibility among the local population towards maintaining their village clean and green and ultimately conserving the environment.

Conclusion:

The village cleaning program organized by Avanthi Institute of Pharmaceutical Sciences Pharmacy students was a successful endeavour in promoting community engagement and environmental consciousness. Such initiatives play a pivotal role in nurturing socially responsible citizens.

- The program ended with slogans like:

“From litter to glitter- let’s clean our village together”

**“చెత్త నుండి మెరుపు వరకు- మన గ్రామాన్ని
కలిసి శుభ్రం చేద్దాం”**

Report: Awareness program on biomedical and hospital disposal waste management by Pharmacy students of Avanathi Institute of Pharmaceutical Sciences

Date: 10-02-2023

Time: 9:30AM

Location: King George Hospital (KGH)

Introduction: On 10-02-2023, Pharmacy students (5th Pharm.D students and 6th years interns) of Avanathi institute of Pharmaceutical Sciences organized an awareness program on biomedical and hospital disposal waste management at surgical department King George hospital, Visakhapatnam. Where we observed more biomedical waste which was not properly disposed, so we conducted the program aimed to assess knowledge, attitudes and practices of healthcare professional Institutions regarding the proper disposal and management of biomedical waste at surgical department

Program highlights:

- Students have created awareness among the health care professionals and institutions.
- They have educated about proper disposal and management of biomedical waste (syringes, cotton swabs, slides, surgical blades) in colored bins.
 - **Yellow:** Cotton swaps, human discharge, discarded body tissues, expired medicines and other waste products
 - **Red:** Catheters, urinary catheters, IV sets, syringes, gloves.
 - **Blue:** Sharp items like needles, surgical blades
 - **White:** Microscope slides, glassware
- Students have explained a health care professor of such waste is crucial to prevent the spread of infections and protect the environment.
- To improve awareness and skills for health care professionals in biomedical waste management.
- **Involvement of Health care professionals:** The healthcare professionals, medical, pharmacy students have actively participated in this awareness program. It also explained how environment is harmed by improper management of biomedical and hospital waste. The program served as an example of how educational institutions can play a vital role in fostering positive change in the health care sector.

Report: Village Cleaning Program by students of Avanthi Institute of Pharmaceutical Sciences 2nd B.Pharm students at Cherukupally on 16-02-2021

Date: 16-02-2021

Time: 10:30 AM

Location: Cherukupally

Introduction:

On, 16-02-2021 a Village cleaning program was organized by the 2nd B.Pharmacy students of Avanthi Institute of Pharmaceutical Sciences at Cherukupally. Swachh Bharat program has been initiated in the India as an initiative to have clean and healthy surroundings. As an ideal initiative our college has also taken a step to contribute itself in maintaining the surrounding clean and spreading awareness in the nearby adopted village Cherukupally. When compared to urban areas villages have less awareness, facilities, and cleanliness.

Objectives:

- To promote cleanliness in surrounding and hygienic practices in rural and urban areas
- To ensure proper management of solid and liquid waste.
- To promote human health and improve quality of life among people living in the area.
- To prevent pollution of environment.

Activities:

The event began with cleaning the trash at roadsides, community, households at various spots adopted village Cherukupally. The program started with a brief orientation session, highlighting the importance of maintaining cleanliness and hygiene for a healthier life by 70 B.Pharm students to the community. The students have actively participated in this program equally dividing themselves into groups along with four faculty members (Dr. T.Rushi, Dr. B.Manoj Kumar, K.Rohini) and cleaned an area of 5 kms and collected 12kgs of domestic refuse which has been handed over to the municipality. We used banners and placards to educate an approximate of 80 people in the community.

PRINCIPAL

Vizianagaram Dt., - 531162

Impact:

The enthusiastic participation of the students led to a significant improvement in the cleanliness of Cherukupally Village. The program has created awareness among the people around to have their surrounding clean and understood the need to do so. A lot of area has been cleaned by the students and inculcated the people with a sense responsibility towards environment. The spread of diseases has also reduced as the surroundings are clean.

Conclusion:

The village cleaning program organized by Avanathi Institute of Pharmaceutical Sciences B.Pharmacy students was a successful endeavour in promoting community engagement and environmental consciousness. Through these initiatives the people in these areas have learned to keep their surroundings healthy.

- The program ended with slogans like:

“A step towards cleanliness”

వేయకు చెత్త - చేయకు పాపం*

Report: Preventive measures to control vector borne diseases by maintaining proper environmental determinants

Date: 08-09-2021

Time: 10:30 AM

Location: Gudiwada

Introduction:

On, 08-09-2021 an Awareness program on preventive measures to control vector borne disease-Typhoid by maintaining proper environmental determinants was organized by 30 students of -4th Pharm.D along with 2 faculty members (Dr.B.Manoj Kumar, Dr.T.Rushi Naidu) of Avanthi Institute of Pharmaceutical Sciences at Gudiwada. The program was aimed to create awareness about Typhoid and promote wellness among 50 local people and 60 primary school students. Typhoid fever is a bacterial infection caused by the bacterium Salmonella Typhi. It is primarily transmitted through the ingestion of food or water contaminated with the faeces of an infected person.

Activities:

The activity started with a brief session educating the local people and primary school students about typhoid, and its symptoms which include Fever, Weakness and fatigue, Abdominal pain, Headache, Loss of appetite, Diarrhoea or constipation, Rash etc and transmission of typhoid. We have also educated the people about Prevention of typhoid fever involves practicing good hygiene, including frequent hand washing, drinking clean and treated water, consuming properly cooked food, and getting vaccinated. The typhoid vaccine is available and recommended for individuals travelling to areas where typhoid fever is prevalent. Educating materials like banners, charts, placards and pamphlets are used in educating the public and students about the disease condition.

Impact:

The enthusiastic participation of the students led to creating awareness about the typhoid, its cause and preventive measures among the local people and primary school students. It also enhanced people in educating and in recognising their symptoms and what care should be taken in such condition.

Report: Tree plantation Program (Forest restoration: a path to recovery and well-being) by Avanathi Institute of Pharmaceutical sciences Pharmacy students.

Date: 13-11-2021

Time: 10:30 AM

Location: Cherukupally

Introduction:

On, 13-11-21 a commendable initiative was undertaken by the B Pharmacy students of Avanathi Institute of Pharmaceutical sciences, aimed in promoting tree planting program in Cherukupally. Forest restoration represents a profound pathway to recovery and well-being, not only for the environment but for humanity as a whole. By actively engaging in the restoration of our forests, we embark on a journey towards ecological healing and balance. The symbiotic relationship between healthy forests and human well-being is undeniable, as trees play a pivotal role in purifying air, regulating climate, and providing a habitat for diverse ecosystems. Tree plantation programs can serve as educational tools, raising awareness about the importance of trees and the environment. 70 students, accompanied by 2 faculty members (Dr. T.Rushi, Dr.B.Manoj Kumar), enthusiastically planted a variety of 50 indigenous trees in strategic locations across Cherukupally.

Activities:

The tree planting program commenced with a brief introduction by the students to the local community. Students interacted with the people and explained about the tree plantation and their importance at village level and students also influenced community to plant the trees at their respective places and also educated the local community about the pivotal role trees play ecological healing. Students have planted a total of 50 trees in various places in the village.

Community Involvement:

Local residents actively participated in the event, reinforcing the sense of unity and shared responsibility. Through interactive sessions and discussions, the students conveyed the importance of energy-efficient practices, emphasizing how trees contribute to reducing carbon footprint and conserving natural resources.

PRINCIPAL

Conclusion:

The tree planting program conducted by Avanthi Institute of Pharmaceutical sciences Pharmacy students showcased their commitment to Forest restoration: a path to recovery and well-being. The event served as an example of how educational institutions can play a vital role in fostering positive change in society.

- Finally the program was concluded with the slogans

“Restore the forest, renew the spirit: a journey to well-being”

Report: Preventive measures to control vector borne diseases (Malaria) by maintaining proper environmental determinants.

Date: 17-11-2021

Time: 10:00 AM

Location: Guduwada

Introduction:

On, 17-11-2021 an Awareness program on preventive measures to control vector borne disease- Malaria by maintaining proper environmental determinants was organized by 40 students of 3rd Pharm.D along with 2 faculty members (Dr.B.Manoj Kumar, Dr.T.Rushi Naidu) of Avanathi Institute of Pharmaceutical Sciences at Guduwada. The program was aimed to create awareness about malaria and promote wellness among the local people and primary school students.

Activities:

The activity started with a brief session about the malaria, its symptoms, causes and transmission of malaria. It also educated the students about the preventive measures and foods that should be taken and shouldn't be taken for the malaria. The common symptoms of malaria were explained like fever, chills, headache, vomiting, sweating and the preventive measures such as using mosquito repellents at home, wearing protective clothing, reducing stagnant water at residence, sleep under mosquito nets were explained to the local people and primary school students. The educational materials used are placards, banners, charts and pamphlets.

Impact:

The enthusiastic participation of the AIPS students led to creating awareness about the malaria among the local people and primary students. It also enhanced people in educating and in recognising their symptoms and what precautions should be taken in such condition.

Report: Motivating Local Shopkeepers to Ban Plastic

Date: 11-05- 2022

Time: 11:00 AM

Location: Cherukupally

Introduction: On 11-05-2022 an Outreach Program on Motivating local shopkeepers to Ban plastic has been conducted by 3rd year and 4th year B-Pharm students along with 2 faculty members (Dr.B.Manoj kumar, Dr.T.Rushi Naidu) of AIPS. 30 Students have addressed local shopkeepers of nearly 40 shops in Cherukupally village creating awareness with banners about disadvantages and harm caused by usage of plastic. Plastic pollution is a major issue in today's growing population of Cherukupally village. Most conventional plastics are non-biodegradable, meaning they do not break down easily in the environment. They can persist in the environment for hundreds of years, causing long-term pollution and ecological damage. As the population continues to grow, the challenges posed by plastic waste will likely intensify, necessitating concerted efforts to mitigate its environmental impact for the well-being of ecosystems and future generations.

In response to the pressing environmental concerns associated with plastic usage, a group of Pharmacy students from Avanthi Institute of Pharmaceutical Sciences initiated a campaign to motivate local shopkeepers in Cherukupally to ban plastic. The campaign aimed to raise awareness about the detrimental effects of plastic on the environment and encourage sustainable alternatives.

Campaign Activities:

The students organized a series of activities on 11-05-2022, to engage the local shopkeepers and promote the plastic ban initiative:

- 1. Awareness Program:** An interactive workshop was conducted to highlight the environmental hazards caused by plastic usage. The workshop emphasized the importance of adopting eco-friendly alternatives.
- 2. Distribution of Alternatives:** Reusable cloth bags and paper bags were distributed among shopkeepers as an immediate replacement for plastic bags. This step aimed to demonstrate the feasibility of shifting away from plastic.

PRINCIPAL
Avanthi Institute of Pharmaceutical Sciences
Cherukupally (V), Bhogapuram Mandal
Vizianagaram Dt., - 531162

Impact:

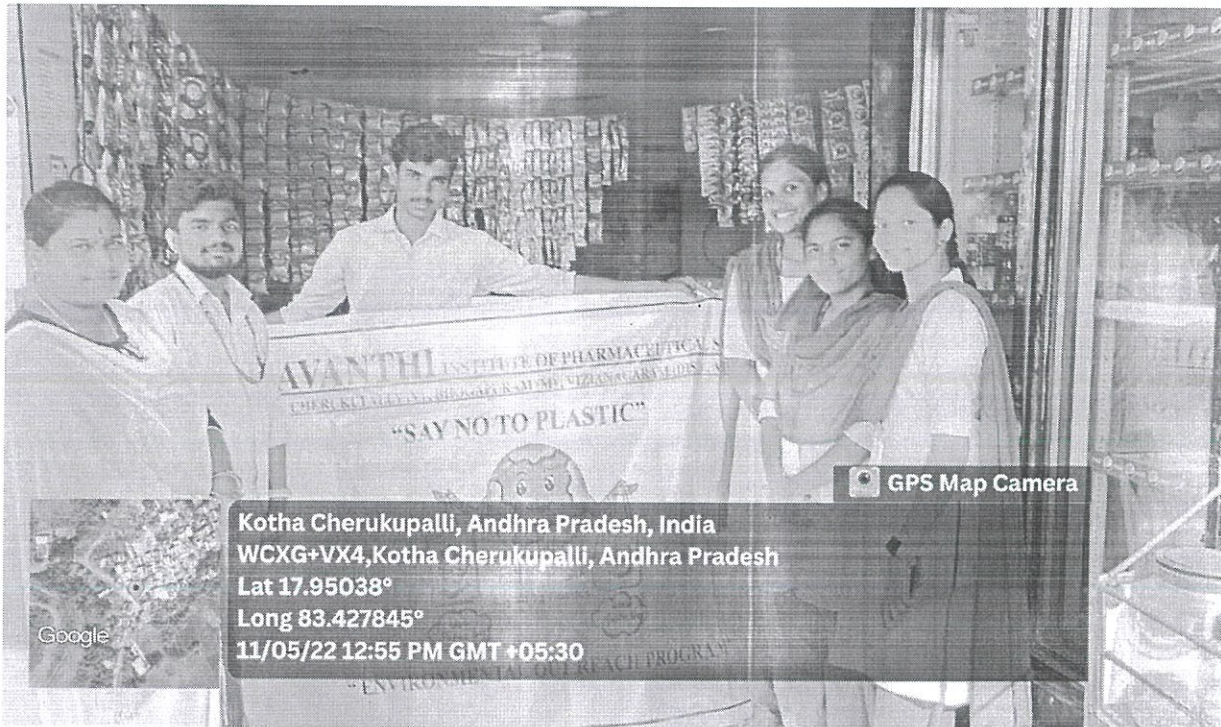

The campaign successfully motivated a significant number of local shopkeepers of 40 shopkeepers in Cherukupally village who committed to the plastic ban initiative. Many pledged to gradually eliminate single-use plastic bags and explore more sustainable packaging solutions.

Conclusion:

The efforts of Avanathi Institute's Pharmacy students marked an important step toward a more sustainable future in Cherukupally. The awareness generated and the commitments made by the shopkeepers underscore the potential for positive change at the grassroots level.

Report: Community Outreach Program on Energy Conservation

Date: 08-10-2020

Time: 10:30 AM

Location: Cherukupally

Introduction:

The Community Outreach Program on Energy Conservation was organized by the Pharmacy students of Avanathi Institute of Pharmaceutical Sciences at Cherukupally on 08-10-2020. The aim of the program was to raise awareness about energy conservation and promote sustainable practices within the community. By conserving energy, we can decrease the demand for fossil fuels, in turn reducing the carbon emissions, mitigating the impact of climate change. By creating the awareness program among the community population ultimately conserves energy which helps in extending the lifespan of most of the finite and non-renewable resources. Energy conservation can also mitigate the environment pollution by increasing the air and water quality. 30 students influenced 40 household people about the use of solar panels and LED lights.

Objectives:

1. Raise awareness about the importance of energy conservation.
2. Educate the community about simple energy-saving techniques.
3. Demonstrate practical methods to reduce energy consumption.
4. Foster a sense of responsibility towards environmental sustainability.

Program Highlights:

The program consisted of interactive sessions and hands-on activities on energy conservation techniques. The students engaged with the community through presentations, and discussions on energy-efficient practices for households and community spaces. They also showcased renewable energy options, such as solar panels, and provided information on government incentives for adopting these technologies.

PRINCIPAL
Avanathi Institute of Pharmaceutical Sciences
Cherukupally (V), Bhogapuram Mandal
Vizianagaram Dt. - 531162

Community Engagement:

The villagers actively participated in the sessions, sharing their insights and experiences. Q&A sessions allowed for clarification of doubts and encouraged open dialogue. The students emphasized the economic and environmental benefits of energy conservation, underscoring how small changes can make a significant impact.

Outcome:

The community members expressed enthusiasm and pledged to implement energy-saving measures in their daily lives. The program left a lasting impression on both the students and the villagers, highlighting the potential for further collaborative initiatives.

Conclusion:

The Community Outreach Program on Energy Conservation was a successful endeavour that provided valuable knowledge to the Cherukupally community. By fostering a culture of energy conservation, the program contributed towards a more sustainable and eco-friendly future.

- The program ended with the slogans

“Conserve today, enjoy tomorrow”

Report: Tree revival campaign on One Citizen One Tree by students of Avanathi Institute of Pharmaceutical Sciences

Date: 04-11-2020

Introduction:

The tree revival campaign on "One Citizen, One Tree" conducted by Avanathi Institute of Pharmaceutical Sciences was a significant initiative aimed at promoting environmental consciousness, tree plantation, and green living within the AIPS student community. This program, organized by the college's Environmental Club, took place on 04-11-2020 and involved a variety of activities to encourage individuals to contribute to reforestation and environmental sustainability.

Program Highlights:

Tree Plantation Drive:

The central component of the program was a tree plantation drive. College students and faculty actively participated by planting a tree in their residential areas.

Tree Adoption Program:

To encourage long-term commitment to tree care, a "Tree Adoption" program was introduced by the institution. Individuals were invited to adopt a tree, taking responsibility for its growth and maintenance. This program aimed to foster a sense of ownership and environmental stewardship.

The program educated the students about

Benefits of Trees: Program explaining the ecological, social, and economic benefits of trees in urban and rural settings.

Tree Care and Maintenance: Presentation sessions were created on tree care, including watering, pruning, and protection from pests and diseases.

Urban Forestry: Discussions on the significance of urban forestry in creating sustainable and livable cities.

Green Living Initiatives:

The program promoted green living practices by providing information on sustainable living, composting, and waste reduction. Attendees received guidance on how to reduce their carbon footprint and make eco-friendly choices.

Conclusion:

The tree revival campaign on "One Citizen, One Tree" conducted by Avanathi Institute of Pharmaceutical Sciences was a remarkable initiative that successfully encouraged tree planting and student involvement at their households. It empowered individuals to take an active role in reforestation efforts and inspired a sense of environmental responsibility.

This event demonstrated the positive impact that educational institutions can have in fostering environmental consciousness and driving positive change within the community. It is crucial to continue organizing such programs to build a greener and more sustainable future.

Report: Tree plantation Program (Biodiversity –a concern that is both urgent and existential by Avanathi Institute of Pharmaceutical sciences Pharmacy students.

Date: 09-12-2020

Time: 11:00AM

Location: Cherukupally

Introduction:

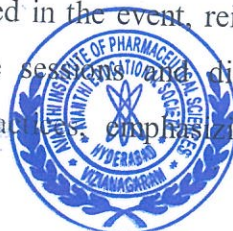

On, 09-12-2020 a commendable initiative was undertaken by the Pharm.d students of Avanathi Institute of Pharmaceutical sciences, aimed in promoting tree planting program in Cherukupally. The decline in biodiversity is indeed an urgent and existential concern. It threatens the delicate balance of ecosystems, impacting everything from food production to climate regulation. Preserving biodiversity is not just a matter of environmental well-being; it's crucial for our own survival. Immediate actions and sustainable practices are essential to address this pressing issue and ensure a healthier planet for current and future generations. Tree plantation programs can serve as educational tools, raising awareness about the importance of trees and the environment. 50 Pharm.D students, accompanied by 2 faculty members (Dr. T.Rushi, Dr.B.Manoj Kumar), enthusiastically planted a variety of 40 indigenous trees in crucial points across Cherukupally Village.

Activities:

The tree planting program commenced with a brief introduction by the students to the local community. Students interacted with the people and explained about the tree plantation and their importance at village level and students also influenced community to plant the trees at their respective places and also educated the local community about the pivotal role trees play in maintaining ecological balance. Students have planted a total of 40 trees in various places in the village.

Report: Community Outreach program on say no to plastic by Avanathi Institute of Pharmaceutical Sciences at Chittivalasa

Date: 05-01-2021

Time: 11:00 AM

Location: Chittivalasa

Introduction:

The Community Outreach program on "Say No to Plastic" conducted by Avanathi Institute of Pharmaceutical Sciences at Public Places aimed to reduce the plastic usage in daily life in various aspects like packaging of food, beverages, household items, plastic bottles, bags, containers etc It also aimed to raise awareness about the harmful effects of plastic pollution on the environment and encourage sustainable alternatives. This program, organized by the college's Environmental Action Club, took place on 05-01-2021 and involved various educational activities and community engagement initiatives. Use of plastic in the environment has led to a range of environmental challenges due to its durability, persistence and widespread use. Plastic usage can have various affects on environment like pollution of land and water, impact on wildlife like ingestion and entanglement, formation of non-degradable micro plastics, plastic toxicity, climate change etc

Program Highlights:

Several informative presentations like placards, banners were delivered to educate the public about the impact of plastic on the environment. Key topics included:

- Plastic Pollution: An overview of the extent and consequences of plastic pollution is explained in local and global contexts.
- Alternatives to Single-Use Plastic: Information on eco-friendly alternatives and reusable options to reduce plastic consumption.
- Recycling and Up cycling: Guidance on proper recycling practices and creative up cycling ideas to repurpose plastic items.

- **Plastic Collection Drive:**

As part of the program, a plastic collection drive was organized, where student volunteers and community members collected 50 kgs of plastic waste (plastic bottles, bags, covers, etc) from the public place and ensured its proper disposal or recycling.

Community Engagement:

The program actively engaged the local community, inviting residents and local authorities to collaborate on plastic reduction strategies and foster a sense of collective responsibility. 35 students along with 2 faculty members (Dr. T.Rushi, Dr.B.Manoj Kumar) actively participated in this program and educated nearly 45 households and 15 shops regarding the severe effects of plastic on environment.

Conclusion:

The Community Outreach program on "Say No to Plastic" conducted by Avanthi Institute of Pharmaceutical Sciences at Public Place successfully achieved its objectives. It not only educated participants about the adverse effects of plastic pollution but also empowered them with practical knowledge and alternatives to reduce their plastic footprint. This event showcased the positive impact of collaboration between educational institutions, local authorities, and the community in addressing environmental challenges.

The program came to a close with the use of slogans

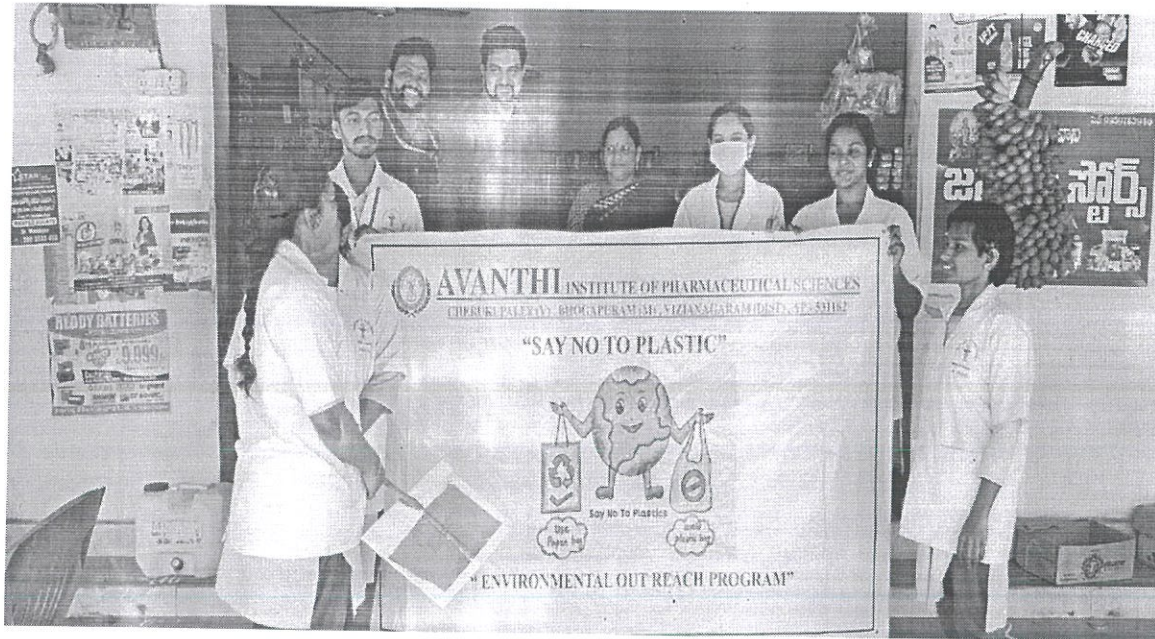

"Say no to plastic, yes to a greener planet"

"ప్లాస్టిక్ కు నో చెప్పండి, పచ్చని
గ్రహానికి అవును"

Report: Village Cleaning Program by 2nd B.Pharmacy Students of Avanathi Institute of Pharmaceutical Sciences at Cherukupally on 05-06-2021

Date: 05-06-2021

Time: 11:00 AM

Location: Cherukupally

Introduction:

On, 05-06-2021 a village cleaning program was organized by the 2nd B.Pharmacy students of Avanathi Institute of Pharmaceutical Sciences at our adopted village Cherukupally. The program aimed to contribute to the local community's well-being and promote environmental awareness among the students. This program has been executed as a step under the initiative taken by the government the Swachh Bharat which aims at having a clean and healthy environment. When compared to urban areas villages have less awareness, facilities, and cleanliness.

Objectives:

- Create awareness among communities towards sanitation and cleanliness.
- Educating the locals about proper waste disposals.
- To promote hygienic practices in rural and urban areas.
- To improve quality of life.

Activities:

The event began with cleaning the trash at roadsides, community, and household waste at various spots of adopted village Cherukupally. The program started with a brief orientation session, stating the importance of maintaining cleanliness and hygiene for a healthier environment. 50 2ndB.pharmacy students have actively participated in the program dividing themselves into groups along with 3 faculty members (Dr.T.Rushi, Dr.B.Manoj Kumar, K.Rohini) to spread across a area of 10kms and collected 8kgs of domestic refuse which has been handed over to municipality. Banners and placards have been used to educate an approximate of 60 people in and around the community.

PRINCIPAL
Avanathi Institute of Pharmaceutical Sciences
Cherukupally (V), Bhogapuram Mandal,
Vizianagaram Dt., - 531162

Impact:

The enthusiastic participation of the students led to a significant improvement in the cleanliness of Cherukupally. The program not only enhanced the physical appearance of the village but also fostered a sense of responsibility among the students towards the environment and the community. By this initiative a lot of communicable diseases have been reduced in the community.

Conclusion:

The village cleaning program organized by Avanathi Institute of Pharmaceutical Sciences Pharmacy students was a successful endeavour in promoting community engagement and environmental consciousness. Such initiatives play a pivotal role in nurturing socially responsible citizens.

- The program ended with slogans like:

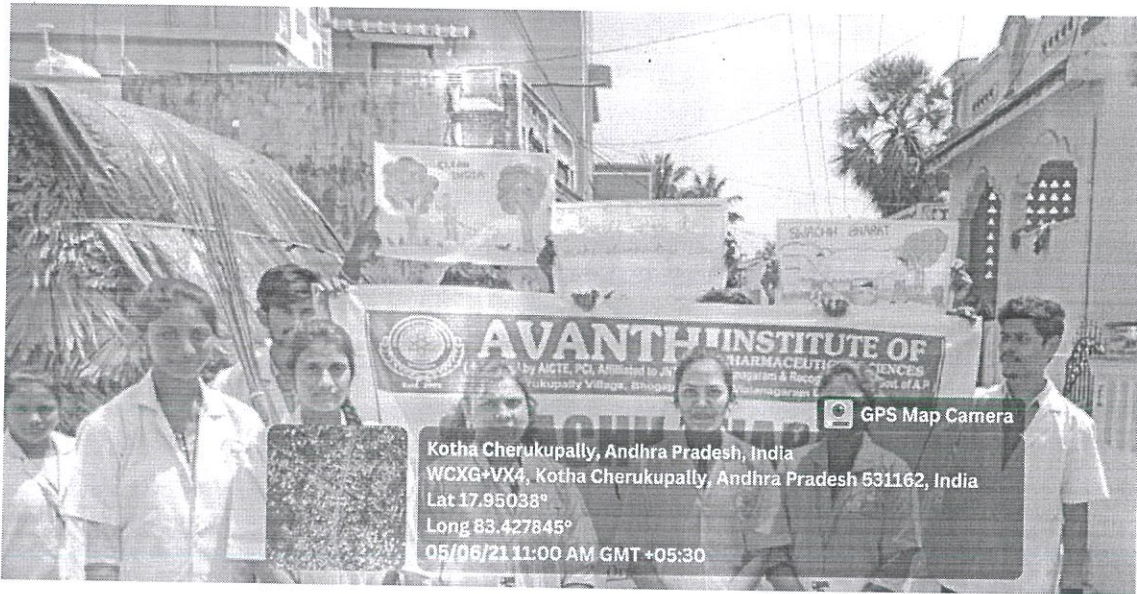

“Ek Kadam Swachhta ki ore”

“అపరిశుభ్రత నివారిద్దాం - వ్యాధులను నిరోధిద్దాం”

Report: Tree plantation Program on the eve of World Environment Day (Tree Plantation Program and awareness) by Avanathi Institute of Pharmaceutical sciences Pharmacy students.

Date: 05-06-2019

Time: 11:00 AM

Location: Cherukupally

Introduction:

On, 05-06-2019 a commendable initiative was initiated by the B.Pharmacy students of Avanathi Institute of Pharmaceutical sciences, aimed in promoting tree planting program in Cherukupally. Tree programs assume a critical part in natural security, biodiversity upgrade and fighting environmental change. Trees assimilate carbon dioxide and delivery oxygen in keeping up with homeostasis in people and climate. Trees give environments to various species, advancing biodiversity. Trees help in keeping a decent water table and forestalling soil saltiness. Tree plantation programs can serve as educational tools, raising awareness about the importance of trees and the environment. 60 students, accompanied by 2 faculty members (Dr. T.Rushi, Dr.B.Manoj Kumar) enthusiastically planted a 45 variety of indigenous trees in strategic locations across Cherukupally.

Activities:

The tree establishing program started with a short acquaintance by the understudies with the residents of local area. Understudies cooperated with individuals and made sense of about the tree estate and their significance at town level and understudies additionally impacted local area to establish the trees at their particular spots and furthermore taught the residents local area about the tree plantation. Understudies have established a sum of 35 trees in different spots in the village.

Community Involvement:

Local residents occupants effectively participants in the tree plantation, building up the feeling of solidarity and shared responsibility through intuitive meetings and conversations, the understudies passed the significance of stressing how trees contribute on to lessening carbon impression and rationing regular asse

Report: Awareness Program on Water Conservation at Cherukupally village.

Date: 08-07-2019

Time: 10:00 AM

Location: Cherukupally

Introduction:

On, 08-07-2019 a Awareness Program on Water Conservation was conducted by the 45 Students of 5th Pharm.D along with faculty members (S.Hotta, N.Hema Durga) of Avanathi Institute of Pharmaceutical Sciences at Cherukupally. The purpose of the program was to educate and raise awareness among the 40 primary school students and 30 local people about the importance of water conservation and sustainable water usage.

Event Details:

The awareness program consisted of interactive sessions with the people, and discussions led by Pharm.D students who shared valuable insights on the current water crisis and the need for responsible water management. The program aimed to sensitize the primary school students and general public about the significance of conserving water resources for future generations.

Activities:

1. Presentation using banners and placards on Water Scarcity and Conservation
2. Interactive Discussions on Water-Saving Practices
3. Distribution of Informational Pamphlets
4. Q&A Session

Impact and Feedback:

The program received positive feedback from the local people, who expressed their new found understanding of the importance of water conservation. Many students pledged to adopt water-saving practices in their daily lives and spread awareness among their families.

Report: Village Cleaning Program by Avanathi Institute of Pharmaceutical Sciences Pharm.D Students at Cherukupally.

Date: 04-10-2019

Time: 11:00 AM

Location: Cherukupally

Introduction:

On, 04-10-2019 a Village cleaning program was organized by the Pharm.D students of Avanathi Institute of Pharmaceutical Sciences at Cherukupally. The program aimed to contribute to the local community's well-being and promote environmental awareness among the students. This program was conducted as a part of Swachh Bharat-2019 and to bring awareness among the community people about the importance of cleaning the surroundings.

Objectives:

- To promote cleanliness in surrounding and hygienic practices in rural and urban areas.
- To educate the locals about proper waste disposals around their surroundings.
- To ensure proper management of solid and liquid waste.
- It helps to improve the quality of life of community people.

Activities:

The program had began with cleaning of domestic refuse on roads and household waste at various parts of Cherukupally village. The students, divided into groups, actively participated in various cleaning activities, including picking up dry waste, paper waste, polythene etc. 30 Pharm.D students have actively participated in this program equally dividing themselves into groups along with 2 faculty members (S. Hotta, N.Hema Durga) and cleaned an area of 3kms and collected 83 kgs of domestic refuse which has been handed over to the municipality. In this way we educate the 46 people in the community by using placards and posters to bring awareness about the waste management.

Principal
Avanathi Institute of Pharmaceutical Sciences

Date: 13-02-2020

Time: 11:30 AM-12:30 PM

Location: Tagarapuvalasa

Introduction:

The Awareness Program - Rally on Clean India, conducted by 50 Pharm.D students and faculty members (Dr.B.Manoj kumar, Dr.T.Rushi Naidu, Dr.N.Hema Madhuri) of Avanathi Institute of Pharmaceutical Sciences, aimed to promote cleanliness, sanitation, and a cleaner environment in Tagarapuvalasa community. This event, organized by the college's Environmental Club, took place on 13-02-2020 at Tagarapuvalasa and it featured a vibrant rally from Tagarapuvalasa Bus Stop to Y.S.R Statue which covered n area of 2 km followed by interactive activities and awareness campaigns. The program involved in creating awareness among 60 local people about maintaining a cleaner environment.

Program Highlights:

1. Rally:

The program kicked off with an energetic rally that brought together college students, faculty members, and local residents. Participants marched through the streets, holding banners, posters, and placards with messages promoting cleanliness, hygiene, and a "Clean India."

2. Cleanliness Drive:

A cleanliness drive was organized where participants, equipped with gloves and garbage bags, engaged in cleaning the public areas in and around Tagarapuvalasa locality This initiative aimed to lead by example and encourage the community to take responsibility for their surroundings.

Report: Awareness program among public on renewable energy by Avanthi Institute of Pharmaceutical Sciences

Date: 04-03-2020

Time: 10:00 AM

Location: Cherukupally

Introduction: Renewable energy refers to energy derived from sources that are naturally replenished and are virtually inexhaustible. These sources of energy include solar, wind, hydroelectric, geothermal, and biomass. Unlike fossil fuels (coal, oil, and natural gas), renewable energy sources do not deplete over time and have significantly lower environmental impacts in terms of pollution and greenhouse gas emissions.

On 04-03-2020 an Awareness program among public on renewable energy was organized by 50 Students of Pharm.D and B.Pharm along with faculty members (Dr.B.Manojkumar, Dr.T.Rushi Naidu, Dr.N.Hema Madhuri) of Avanthi Institute of Pharmaceutical Sciences at Cherukupally. The program was aimed to create awareness about renewable energy usage among the 60 local people and students.

Activities:

1. Information Pamphlets:

Information pamphlets and brochures are distributed containing detailed information on renewable energy sources, their advantages, and steps to adopt renewable energy practices. Students were available to engage in one-on-one discussions and provide guidance.

2. Awareness Walk and Street Campaign:

A group of students conducted an awareness walk in the locality, distributing flyers and engaging with residents to discuss the importance of renewable energy and its positive impact on the environment.

PRINCIPAL
Avanthi Institute of Pharmaceutical Sciences
Cherukupally (V), Bhogapuram Mandal
Vizianagaram Dt., - 531162

Conclusion:

The awareness program organized by pharmacy students of Avanthi Institute of Pharmaceutical Sciences was a resounding success in achieving its objectives. It educated General public of Cherukupally Village about the various renewable energy sources, their benefits, and the critical role they play in reducing the carbon footprint. The program not only raised awareness but also inspired students and the public to take an active interest in renewable energy and sustainable practices.

As we move towards a more sustainable future, it is crucial to continue organizing such educational initiatives to promote renewable energy adoption and environmental conservation. The program was wrapped with a slogan of-

"Powering Tomorrow, Sustainably Today: Embrace Renewable Energy!"

"నాళ్ళు శక్తితో శక్తించుకోవడం, ఈనాడు సౌజన్యంగా: పునరుత్పాదన శక్తిని అందుకో!"

Report: Program on “BEAT AIR POLLUTION” for World Environmental day by students of Avanathi Institute of Pharmaceutical Sciences.

Date: 05-06-2018

Time: 10:00 AM

Location: Cherukupally

Introduction:

The awareness program on “Beat Air Pollution” conducted by 50- B.Pharm and Pharm.D Students and 2 faculty members (Mrs. B.Chaitanya, S.Hotta) from the “Environmental Club” of Avanathi Institute of Pharmaceutical Sciences was organized to celebrate World Environment Day at Cherukupally village to educate 60 household and 45 local population about the harmful effects of air pollution and better ways to prevent the air pollution. Air pollution refers to the presence of harmful or excessive quantities of substances including gases, particles, and biological molecules in the Earth's atmosphere that can cause harm to living organisms and the environment. Air pollution can lead to respiratory diseases (such as asthma and bronchitis), cardiovascular issues, lung cancer, and other health problems. It can harm ecosystems, damage buildings and monuments, contribute to climate change, and impact agricultural productivity. Reducing air pollution is crucial to safeguard human health, protect the environment, and mitigate the impacts of climate change. Collaboration between governments, industries, and individuals is essential to address this global issue.

This event, held on June 5th, aimed to educate local community about their role in preserving our planet. The program featured a series of engaging activities, informative sessions, and practical demonstrations.

Activities:

1. Awareness Campaigns:

- Organizing workshops, seminars, or awareness sessions in the village to educate residents about the causes and effects of air pollution.
- Distributing informational posters, or flyers with tips on reducing air pollution and its impact on health and the environment.

PRINCIPAL

Avanathi Institute of Pharmaceutical Sciences
Cherukupally (V), Bhogapuram Mandal
Vizianagaram Dt., - 531162

2. Tree Plantation Drives:

Conducting tree planting activities to increase green cover in the village. Trees help in absorbing air pollutants and improving air quality.

3. Clean-Up Initiatives:

- Organizing clean-up drives to remove litter and waste from public spaces like streets, parks, and water bodies. Proper waste management prevents air pollution from burning garbage.

4. Advocacy and Pledges:

- Encouraging villagers to take pledges for adopting eco-friendly practices like reducing plastic use, conserving energy, and using public transport or bicycles instead of private vehicles.

5. Engaging the Community:

- Involving local community leaders, schools, and organizations in the activities to ensure a wider reach and sustainable impact.

Conclusion:

The "Beat Air Pollution" program conducted by AIPS college students in a Cherukupally village on the eve of World Environment Day culminated in a series of impactful initiatives that fostered awareness, inspired action, and initiated positive changes within the community. Through a collaborative effort and proactive engagement, the program aimed to address the critical issue of air pollution and its detrimental effects on both human health and the environment.

Throughout the event, a multifaceted approach was adopted, encompassing educational workshops, practical demonstrations, community engagement activities, and environmental initiatives. These efforts were tailored to the specific needs and dynamics of the village, ensuring a meaningful and lasting impact. The program's success was evident in the increased awareness among villagers about the causes and consequences of air pollution. The program was wrapped with a slogans of

"Breath by breath, let's beat air pollution for a cleaner earth."

"శ్వాస చేస్తూ, కాలేని ప్రదూషణను దూరం చేయాలి మరియు
శుభ్రమైన భూమి కోసం పోరాడుకోవాలి"

Report: Village Cleaning Program by Avanathi Institute of Pharmaceutical Sciences Pharm.D Students at Cherukupally.

Date: 15-09-2018

Time: 10:30 AM

Location: Cherukupally

Introduction:

Village cleaning program was organized by the Pharmacy students of Avanathi Institute of Pharmaceutical Sciences at village Cherukupally. This program was conducted as a part of Swachh Bharat-2018 and to bring awareness among the community people about the importance of cleaning the surroundings. The program aimed to contribute to the local community's well-being and promote environmental awareness among the community people.

Objectives:

- To promote cleanliness in surrounding and hygienic practices in rural and urban areas.
- It helps to improve the quality of life of community people.
- To educate the locals about proper waste disposals around their surroundings.
- To ensure proper management of solid and liquid waste.

Activities:

The program was began with cleaning of roads at street level where major amount of people are residing in 35 households at various parts of Cherukupally. It includes a brief orientation session, highlighting the importance of maintaining cleanliness and hygiene for a healthier environment. 30 Pharm.D students have actively participated in this program equally dividing themselves into groups along with four faculty members (S.Hotta, N.Hema Durga) and cleaned an area of 2.5kms and collected 100kg of domestic refuse which has been handed over to the local municipality. The students divided into groups, actively participated in various cleaning activities, including picking up litter, cleaning public spaces, and raising

awareness about waste segregation. In this way we educate the 46 people in the community by using placards and banners regarding cleanliness to bring awareness about the waste management.

Impact:

The enthusiastic participation of the students led to a significant improvement in the cleanliness of Cherukupally Village. It helps to improve the quality of life of community people. The program not only enhanced the physical appearance of the village but also fostered a sense of responsibility among the students towards the environment and the community. It helps in decreasing the occurrence of diseases among the community.

Conclusion:

The village cleaning program organized by Avanathi Institute of Pharmaceutical Sciences Pharm.D students was a successful endeavour in promoting community engagement and environmental consciousness. Such initiatives play a pivotal role in nurturing socially responsible citizens. It is used to promote cleanliness in surrounding and hygienic practices among the community. By this initiative, the occurrence of communicable diseases will decrease in the community.

Program has been ended with the slogan on cleanliness:

“Always keep the environment clean”

“పర్యావరణాన్ని ఎల్లప్పుడూ శుభ్రంగా ఉంచండి”

Report: Beach cleaning program by pharmacy students of Avanathi Institute of Pharmaceutical Sciences.

Time: 10:00 AM

Date: 19-12-2018

Introduction: On, 19-12-2018 a Beach cleaning program was organized by Pharm.D students of Avanathi Institute of Pharmaceutical Sciences. The program aimed to contribute to the local community's well-being and promote environmental awareness among the students. Beach cleaning mainly includes removal of solid litter, organic matter deposited on beach or coastline by the tide, local visitors or tourists. Humans pollute beaches with materials such as bottles, bags, fishing nets, surgical masks etc.

Objectives:

- To create awareness about environmental protection among the local people.
- To explain how people's action would affect the environment and consequently the future generations.
- To explain the necessity of regular cleaning of trash on the coast as well as the marine litter for the survival of marine ecosystems.
- To avoid the use of plastic in any form in order to protect the marine creatures as well as human beings.

Activities:

The beach cleaning programme was conducted to clean, collect and removal of waste across the bheemili coastline and creating awareness about the harm caused by waste trash and its effect on the marine ecosystem. 35 students and faculty member (S.Hotta) cleaned 4.5 km of coastline and collected 25 kgs of garbage (plastic bottles, bags, straws, fishing nets, surgical masks, broken glasses, sharp metals, hard plastics etc).

Report: Awareness program on waste disposal at public places by students of Avanathi Institute of Pharmaceutical Sciences at Cherukupally village.

Date: 14-02-2019

Time: 10:30 AM

Location: Cherukupally

Introduction:

The awareness program on waste disposal at public places conducted by 45 students of 3rd B.Pharm along with 2 faculty members (S.Hotta, N.Hema Durga) of Avanathi Institute of Pharmaceutical Sciences aimed to promote responsible waste management practices, reduce littering, and enhance the cleanliness of Cherukupally community's public spaces. This program was organized by the college in collaboration with local authorities and took place on 14-02-2019 at Cherukupally village. The event encompassed various educational sessions, practical demonstrations, and community engagement initiatives.

Activities:

1. Cleanliness Drive:

A cleanliness drive was organized, where students and community members participated in cleaning the surroundings of public places. They collected litter and disposed of it properly, highlighting the importance of maintaining cleanliness in shared spaces.

2. Interactive Sessions and Discussions:

Students engaged in interactive sessions with the villagers, discussing the challenges faced in waste management and seeking their opinions and suggestions for improvement. Discussions focused on strategies for sustaining clean and waste-free public areas.

Conclusion:

The awareness program on waste disposal at public places conducted by Avanthi Institute of Pharmaceutical sciences was a resounding success in achieving its goals. It not only educated participants about responsible waste management but also actively engaged the community in practical initiatives such as clean-up drives and recycling programs.

This event demonstrated the positive impact of collaborative efforts between educational institutions, local authorities, and the community in addressing environmental challenges. It is imperative to continue organizing such programs to promote a cleaner and more sustainable environment in our community.

- The program is concluded with the slogan of

"Keep it Clean, Dispose with Care - Our Public
Spaces Deserve Our Share!"

"శుభ్రం నిలిచేయండి, విస్తరణతో నిలిచి - మన
పబ్లిక్ ప్రదేశాలు మా పాటు!"
