Sub: Request for an approval to conduct a Webinar on “DESIGNING AND APPLICATIONS OF AI IN NDDS PREPARATION”.

Respected sir,

This is to inform you that the Department of Pharmaceutical Sciences is planning to conduct a webinar on “**DESIGNING AND APPLICATIONS OF AI IN NDDS PREPARATION**” on 24-06-2021. The resource person for the webinar is

Dr. G. Adinarayana
M.Pharm, Ph. D
Professor
Department of Biotechnology
Srinivasarao College of Pharmacy

The resource person’s lecture would enlighten all the participants about pursuing research and publications. We request you to give permission to organize the webinar on the above mentioned date.

Thanking you sir.

Yours Sincerely

REPORT

Topic : “DESIGNING AND APPLICATIONS OF AI IN NDDS PREPARATION”

Speaker : Dr. G. Adinarayana
Professor
Department of Biotechnology
Srinivasarao College of Pharmacy

Meeting platform : Google meet
<https://meet.google.com/gkj-iwps-tmp>

Participants : Students and Faculty

No. Of Participants : 135

Dr. M B V Raju, Principal, Avanathi institute of Pharmaceutical Sciences started the session by addressing the students and introduced the speaker to the audience. Later the session hand-over to the speaker.

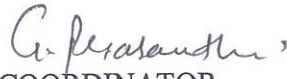

The webinar gave a good understanding regarding Designing and applications of Novel Drug Delivery System. He also gave a detailed information regarding pharmaceutical compound and desired therapeutic effects, and also regarding the advanced techniques and novel drug delivery systems. Students had a better session with future scope of NDDS preparations in relation with artificial intelligence.

He has highlighted the key points:

- Artificial Intelligence (AI) has revolutionized many aspects of the pharmaceuticals
- AI assistance to pharma industries helps to improve overall life cycle of product.
- AI can be implemented in pharma ranging from drug discovery to product management.
- Future challenges related to AI and their respective solutions have been expounded.

Report on One-Day Webinar on “Plagiarism Checking and their Application in Thesis Writing”

Date : 09/12/2021
Participants : Students and faculty
Topic : “Plagiarism Checking and their Application in Thesis Writing”
Speaker : Dr. P. Neelima
Pharm D (Ph.D)
Assistant Professor (Ad HOC faculty)
Andhra University College of pharmaceutical sciences
Meeting Id : <https://meet.google.com/irm-rhbm-ign>
No of participants: 135

Mr. V. Uma Sankar, Head of the department, Avanthi institute of pharmaceutical Sciences started the session by addressing the students and introduced the speaker to the audience. Later the session hand-over to the speaker. The speaker started the session with greeting all the participants. The participants include students.

The one-day webinar on "Plagiarism Checking and Its Application in Thesis Writing" was a comprehensive online event designed to educate participants about the significance of plagiarism detection tools and their relevance in the context of academic thesis writing. This report provides an overview of the webinar, its key takeaways, and the insights shared by the expert speakers.

1. Understanding Plagiarism:

The webinar began with an in-depth exploration of plagiarism, covering its definition, types, and consequences. Participants gained a clearer understanding of what constitutes plagiarism and why it is crucial to avoid it in academic writing.

2. Plagiarism Detection Tools:

The second session focused on various plagiarism detection tools and software available to researchers and students. The speakers highlighted the features and benefits of popular tools like Turnitin, Grammarly, and Copyscape. Participants learned how to use these tools effectively to check their work for plagiarism.

3. Plagiarism Prevention Strategies:

This session delved into strategies to prevent plagiarism, emphasizing the importance of proper citation and referencing. Experts discussed best practices for citing sources, paraphrasing, and summarizing information to maintain academic integrity.

4. Application in Thesis Writing:

The fourth session was a highlight of the webinar, where speakers discussed how the knowledge of plagiarism detection tools and prevention strategies can be directly applied to thesis writing. Participants were given practical tips on how to conduct plagiarism checks on their thesis drafts and ensure originality in their work.

5. Q&A Session:

Participants had the opportunity to ask questions and seek clarification on various aspects of plagiarism detection and thesis writing. The experts addressed queries on a wide range of topics, from specific tool recommendations to citation guidelines.

6. Closing Remarks:

The webinar concluded with a recap of the key takeaways and a call to action for participants to use the knowledge gained in their academic pursuits. The importance of maintaining academic integrity and producing original research was reiterated.

The one-day webinar on "Plagiarism Checking and Its Application in Thesis Writing" provided a valuable learning experience for all participants. It equipped them with a deeper understanding of plagiarism, the tools available to detect it, and strategies to prevent it. The practical insights on applying these concepts in thesis writing were particularly beneficial for students and researchers. This event was a successful endeavor in promoting academic honesty and integrity.

We extend our gratitude to the expert speakers, event organizers, and all participants for making this webinar a success. We hope that the knowledge gained during this event will be instrumental in enhancing the quality of academic writing and research in the future.

Report on seminar on “Artificial Intelligence in Drug Design in Pharmacy”

Date : 17/03/2022
Participants : Students and faculty
Topic : “Artificial intelligence in drug design in pharmacy”
Speaker : Mrs. Sri Lakshmi Puli
Associate Professor
HOD – CSE – DS, AI & MI

No of participants: 110

Ms. Y V Vandana HOD of Pharmaceutics, Avanthi institute of pharmaceutical Sciences started the session by addressing the students and introduced the speaker to the audience. Later the session hand-over to the speaker. The speaker started the session with greeting all the participants. The participants include students. In the beginning, the speaker gave brief knowledge about the seminar and gave a good understanding about the artificial intelligence.

She has highlighted that Artificial intelligence is field of computer sciences that is associated with the concept of machines to perform tasks such as learning, problem, solving, planning, reasoning, identifying patterns. Artificial intelligence drug development, role of artificial intelligence in drug design and also about drug development which includes: target protein understanding, drug / ligand properties predication, drug target interaction, drug repurposing, clinical trials and pharmacovigilance.

Finally, the session has ended by clarifying the doubts of the students, they acquired knowledge and satisfied with the session.

Mr. V. Uma Sankar, Head of the department, Avanthi institute of pharmaceutical Sciences started the session by addressing the students and introduced the speaker to the audience. Later the session hand-over to the speaker. The speaker started the session with greeting all the participants. The participants include students.

The one-day webinar on "Intellectual Property in Trade and Development" was organized with the aim of providing participants with valuable insights into the role of intellectual property in global trade and its impact on development. The event brought together experts, industry professionals, and stakeholders from various sectors to discuss and analyze the complex and multifaceted issues surrounding intellectual property rights in the context of trade and development.

Key Highlights:

The webinar emphasized the importance of intellectual property in the modern global economy and its relevance to trade and development.

1. Understanding Intellectual Property (IP) Basics
2. IP in International Trade Agreements
3. IP and Innovation for Development
4. IP and Public Health:
5. IP Enforcement and Dispute Resolution:
6. IP Strategies for Businesses:

The event concluded with closing remarks that emphasized the need for continued dialogue on intellectual property's role in trade and development. The organizers announced plans for future initiatives and research projects in this domain. Overall, the one-day webinar on Intellectual Property in Trade and Development provided a platform for meaningful discussions, shedding light on the complex interplay between intellectual property, trade, and development.

Report on seminar on “The Interference between Design and Copyright Laws”

Date : 06/04/2022
Participants : Students and faculty
Topic : “The Interference between Design and Copyright Laws”
Speaker : Dr. B. Avinash Ben
M.Tech, Ph.D
HOD, Department of mechanical engineering
AIET
No of participants: 130

Mr. V. Uma Sankar, Head of the department, Avanthi institute of pharmaceutical Sciences started the session by addressing the students and introduced the speaker to the audience. Later the session hand-over to the speaker. The speaker started the session with greeting all the participants. The participants include students.

The one-day seminar on the interference between design and copyright laws brought together legal experts, designers, academics, and industry professionals to explore the complex relationship between intellectual property rights, design, and creativity. The event provided valuable insights and discussions regarding the challenges and opportunities in this rapidly evolving field and the seminar began with an introduction to the fundamentals of design and copyright laws. The speakers highlighted the importance of protecting intellectual property while allowing for creative expression

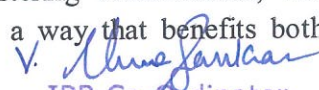

1. Overview of Design and Copyright Laws
2. Divergent Perspectives
3. Case Studies
4. Fair Use and Public Domain
5. Global Perspectives
6. Future Trends
7. Collaboration

The seminar on the interference between design and copyright laws was a productive platform for discussing the challenges and complexities at the intersection of design and intellectual property. It reinforced the need for a balanced and adaptable legal framework that encourages creativity while protecting the rights of creators. By sharing knowledge and fostering collaboration, we can navigate the evolving landscape of design and copyright laws in a way that benefits both the creators and society as a whole.

Seminar on “How To Search, Draft And File Patent ” organized by the department of Pharmaceutical Sciences was inaugurated by welcoming and introducing the speaker Dr. G. Chandrasekhar Rao, Professor, Vignan Institute of Pharmaceutical Sciences by principal sir Dr.M.B.V Raju.

Resource person started his session by giving introduction regarding patents and he also discussed the patent draft and its functions a) establish novelty and (b) establish inventive step or non-obviousness of an invention. He also discussed about the Patent searches which are performed automatically by the patent office whenever a utility patent application is filed. He informed that the search is mandatory because no patent will issue on an invention if the applicant was not the first person to make the invention, or if another filed for patent protection before the applicant. He has explained a detailed process and gave a better session for the participants. The seminar gave a good understanding regarding the entitled topic and he also clarified the queries of the students. The session ended well by the interaction of resource person and students.

Webinar on **Youth Entrepreneurship: The Mindset**, organised by the department of Pharmaceutical Sciences gave a good understanding on Youth Entrepreneurship: The Mindset. The session made students understand that the entrepreneurs are constantly seeking new solutions to the problem they encounter, and motivated young people to utilize a variety of problem-solving skills to approach problems with creativity and innovation. The five characteristics to cultivate entrepreneur mindset are positive mental attitude, creative mindset, persuasive communication ability, intrinsic motivation and drive, tenacity and an ability to learn from failure. The session gave good understanding about skills that any entrepreneur need to adopt which include a vision (know exactly what you want), ask questions (question yourself, your plans, your strategy, your business plans and your decisions etc.), passion and energy, work ethics, create an opportunity, communication, sales. The struggles and growth includes learning new skills, the new challenges, thinks about quitting, remembers their why, keeps working and finally finds success. Finally, the sessions came to end by explaining the queries of the students and have acquired knowledge and they are satisfied with the session.
